

Okuhle Charlie
East London(Open to relocate)
Cell no: 068 374 4420
charlieokuhle4@gmail.com

Okuhle Charlie has recently finished her Diploma in Information Technology majoring in Communication Networks at Nelson Mandela University. She has a strong interest in technical and practical work. She is a multi-oriented, honest individual who easily grasps new concepts.

KNOWLEDGE AND SKILLS

- Knowledge of Microsoft Office Package.
 - Knowledge of TCP/IP networking, routing protocols, troubleshooting, switching protocols
 - Knowledge of Python, C#, Linux, MySQL
 - Knowledge of AI
 - Sound interpersonal communication skills.
 - Orientated towards careful planning and factual analysis.
 - Exercises care and restraint in making judgements and reaching conclusions.
-

LANGUAGES

LANGUAGE	SPEAKING	WRITING	READING
English	Excellent	Excellent	Excellent
IsiXhosa	Excellent	Excellent	Excellent

EDUCATION AND CERTIFICATES

	INSTITUTION	COMPLETED
• Diploma in Information Technology	Nelson Mandela University(NMU)	2025
• CCNA: Switching, Routing and Wireless Essentials Certificate	NMU	2024
• CCNA: Introduction to Networks Certificate	NMU	2023
• CCNA: Introduction to Cybersecurity Certificate	NMU	2023
• Grade 12	Gonubie High School	2022

WORK EXPERIENCE

- April 2026 – Present: CAPACITI Intern
 - Enhancing technical skills in AI by doing courses and projects
 - Developing professional communication, team collaboration, time management, problem-solving, workplace professionalism
-

PROJECT EXPERIENCE

- **Ticket Classification System**

A web-based support portal for a cruise ship environment that allows guests and crew members to submit support requests. An AI engine automatically classifies tickets into the correct department with improved routing accuracy and reduced response times.

- **Final year project : Airport Network Design and Simulation**

Designed and simulated a scalable network infrastructure using Cisco Packet Tracer

Implemented VLANs, subnetting, routing protocols(ospf) and VPNS

Presented and documented network security practices

- **C# PROJECT**

Created a database interface

Developed an app using C# and Windows forms that updates on both forms and database
